TATJANA DEVRNJA

Junior Frontend Developer

I enjoy learning new things and I am quite good at doing so. There is always room for improvement and I try to remember that at all times. I am a team player, but I enjoy having some healthy competition. I consider myself a responsible person and I try my best to improve myself, both professionally and as a person.

SKILLS

- HTML
- CSS
- SASS
- TAILWIND
- MATERIAL UI
- JAVASCRIPT
- TYPESCRIPT
- REACT
- REACT NATIVE
- REDUX
- REST API
- GIT
- FIGMA
- JIRA

EXPERIENCE

2021 - 2022
Kortechs

React/React Native Developer

- I worked on an app related to travelling. The service we provided was taking our customers from their home address to the airport and vice versa. Users were able to book the ride on our platform at the specific date/time and also choose between different types of vehicles. There was a mobile app same as web in React Native. I have also worked on the backoffice. It enabled the agents to view/edit all of the rides, assign drivers and vehicles, view drivers statistics, leave notes from other agents etc...
